Canada -Saskatchewan	Rural Municipality of Frenchman Butte No. 501		453,000							453,000	

**Additional Notes:**

Financial Reporting Framework

a) Basis of accounting:  
The Schedule of Payments by Payee and the Schedule of Payments by Project (collectively, the "Schedules") prepared by Gear Energy Ltd. (the "Company") for the year ended December 31, 2021 have been prepared in accordance with the financial reporting provisions in Section 9 of the Extractive Sector Transparency Measures Act, Section 2.3 of the Extractive Sector Transparency Measures Act – Technical Reporting Specifications and Sections 3.1 to 3.6 of the Extractive Sector Transparency Measures Act – Guidance (collectively the "financial reporting framework").  
The Schedules are prepared to provide information to the Directors of Gear Energy Ltd. and the Minister of Natural Resources Canada to assist in meeting the requirements of the Extractive Sector Transparency Measures Act. As a result, the Schedules may not be suitable for another purpose.

b) Significant accounting policies:

i) Cash basis  
The Schedules have been prepared using the cash basis of accounting, as required by the financial reporting framework, and therefore exclude any accruals related to payments due to governments. The Schedules include all cash payments made, without inclusion of cash inflows from a government. Where the Company makes a payment to a government that is net of credits from that government, the net payment amount has been presented.

ii) Projects  
The Company has aligned its projects with the provinces that it operates in.

iii) Operator  
The Company has reported all payments made by it, on its own behalf and in its role as operator, directly to the government on a 'gross' basis. Amounts paid by third party operators on the Company's behalf have not been included in the Schedules as they are reported in the third party operators' ESTMA filings.

iv) Take in kind payments  
In-kind payments are converted to an equivalent cash value based on the fair market value of the volumes taken in-kind, based on Gear's realized sales price. The Company has valued all in-kind payments included in the Schedules using calculations that are consistent with those made for financial reporting purposes under IFRS.
